The growth of this sector is well complemented by the growth of the corporate environment and the demand for office space as well as urban and semi-urban accommodations. The construction industry ranks third among the 14 major sectors in terms of direct, indirect and induced effects in all sectors of the economy. The global warehousing and storage industry has witnessed significant growth during the last five years. The Indian warehousing industry is set to grow at a CAGR of 8%-10% and modern warehousing at 25%- 30% over the next 5 years due to various factors including the anticipated increase in global demand, growth in organized retail and increasing manufacturing activities, presence of extremely affordable and desirable e-commerce options and growth in international trade. The Government of India along with the governments of the respective states have taken several initiatives to encourage the development in the sector. The Smart City Project, where there is a plan to build 100 smart cities, is a prime opportunity for the real estate companies. While Goods and Services Tax (GST) continues to remain in a state where several loose ends still need to be tied up, logistics companies both domestic and global, are not just bullish about the sector but are actively making investment plans for the coming fiscals as well. It may increase the demand of hi-tech large modern Warehouses, Logistics Parks etc. As India awaits policy reforms to pick up speed, your Company firmly believes that the

Annexure - III MANAGMENT DISCUSSION AND ANALASIS

INDUSTRY OVERVIEW & FUTURE OUTLOOK The real estate sector is one of the most recognized sectors. In India, real estate is the second largest employer after agriculture and is slated to grow at 30% over the next decade. The real estate sector comprises of four sub sectors - housing, retail, hospitality, and commercial. The growth of this sector is well complemented by the growth of the corporate environment and the demand for office space as well as urban and semi-urban accommodations. The construction industry ranks third among the 14 major sectors in terms of direct, indirect and induced effects in all sectors of the economy. The global warehousing and storage industry has witnessed significant growth during the last five years. The Indian warehousing industry is set to grow at a CAGR of 8%–10% and modern warehousing at 25%– 30% over the next 5 years due to various factors including the anticipated increase in global demand, growth in organized retail and increasing manufacturing activities, presence of extremely affordable and desirable e-commerce options and growth in international trade. The Government of India along with the governments of the respective states have taken several initiatives to encourage the development in the sector. The Smart City Project, where there is a plan to build 100 smart cities, is a prime opportunity for the real estate companies. While Goods and Services Tax (GST) continues to remain in a state where several loose ends still need to be tied up, logistics companies - both domestic and global, are not just bullish about the sector but are actively making investment plans for the coming fiscals as well. It may increase the demand of hi-tech large modern Warehouses, Logistics Parks etc. As India awaits policy reforms to pick up speed, your Company firmly believes that the demand for Real Estate & Warehousing in India should remain strong in the medium to long term.

BUSINESS OVERVIEW The Board of Directors of the Company, during the year, have explored all the possibilities to develop its properties. Although there is acute shortage of quality warehousing facilities, due to prevailing subdued market conditions and increasing input costs, the Company has been adopting a conscious approach. Many of the projects are at different stages of planning as well as getting requisite statutory approvals, which will help to move forward, when the conditions improve. In the medium term, the Company also plans for development of transport infrastructure projects, such as Logistics Parks, Warehouses, truck terminals, FTWZs etc in a phased manner. The revenue stream for these projects will primarily be lease based, on long term basis. In case of developing Logistics Parks & Warehouses, your Company shall be looking for strategic partners/investors having long term perspective with reasonable return expectation once the requisite permissions etc. are in place. Many of these projects are presently at various levels of planning as well

as of getting requisite statutory approvals. Management will keep you informed on the development plans, from time to time

Company's performance

During the Year under review revenue from operations for the financial year 2016-17 at 72.99 lacs was improved by 12.60 % over last year (64.82 lacs in 2015-16). Profit after tax (PAT) for the financial year 2016-17 at 37.13 Lacs was incressed by 83.17 % over last year (20.27 Lacs in 2015-16)

THREATS, RISKS & CONCERNS This sector faces various degrees of uncertainty, both at the macro and micro levels. The Company being in the same sector is not an exception. Right from the time of acquisition of land for construction, to the time of sale of finished properties, the Company faces various regulatory requirements. Some of these requirements such as land acquisition, permitted land use, approval from multiple government authorities, development of land and construction thereon, stringent environmental and safety standards etc. increases cost as well as affects timeliness of a project.

MATERIAL DEVELOPMENTS IN HUMAN RESOURCES/ INDUSTRIAL RELATIONS The timely availability of skilled and technical personnel is one of the key challenges. The Company maintains healthy and motivating work environment through various measures. This has helped the Company to retain and recruit skilled work force which would result in timely completion of the projects. INTERNAL CONTROL SYSTEM AND ITS ADEQUACY The Company has an adequate internal control systems, commensurate with size and nature of its business. The system is supported by documented policies, guidelines and procedures to monitor business and operational performance which are aimed at ensuring business integrity and promoting operational efficiency. Internal controls are supplemented by an extensive programme of internal audit, review by management with reference to the documented policies, guidelines and procedures. These controls are designed to ensure that financial and other records are reliable for preparing financial information and other reports and for maintaining regular accountability of the Company's assets and operations.
