RITES eyes export-led growth as order book swells to ₹1,400 crore

GLOBAL FOCUS. Bags a project in Jordan, inks MoUs with Etihad Rail, DP World, AD Ports with West Asia entry

Abhishek Law
New Delhi

State-run railway PSU RITES Ltd is ramping up its export ambitions with an active order book of ₹1,400 crore, marking a sharp 17 per cent uptick from ₹1,200 crore a year ago. The company, which recently dispatched its first batch of two locomotives (of an order of 10 to Mozambique and is working on a mega coach order for Bangladesh Railways, is doubling down on physical execution and market expansion across Africa, the Middle East and Latin America, Rahul Mithal, Chairman and Managing Director, RITES Ltd, said. "We're targeting a substantial revenue push from exports and turnkey projects starting Q3, with execution

activity picking up across multiple geographies," he told *businessline*.

The FY26 order book, currently at ₹8,800 crore, includes ₹2,900 crore in consultancy, ₹4,200 crore in turnkey and ₹1,400 crore in exports. While the fresh export order inflow is from South Africa (the recent one of ₹31 crore), execution of existing orders from Mozambique (₹300 crore) and Bangladesh (₹900 crore) are already in progress.

The Bangladesh contract, covering 200 coaches of seven different designs, is back on track after initial delays. Prototypes for four coach variants are expected to be ready by the year-end, with at least one 20-coach rake likely to be shipped before the financial year-end. Mithal said that RITES is converting in-service diesel

locomotives to cape-gauge for four clients in South Africa, a move that could unlock long-term opportunities in locomotive retrofits. "This will allow us to tap a different segment of the export market," he said. Meanwhile, inroads into West Asia have yielded a consultancy project in Jordan and strategic MoUs with Etihad Rail, DP World and AD Ports. "The goal is to sustain one export order a quarter.

We've managed to do that over the last six quarters, and we expect that trend to continue," Mithal said. On average, RITES is securing ₹40-50 crore worth of export orders every quarter for the last four-to six quarters. Even as the company shifts gears from order acquisition to execution, it is targeting an order book of ₹10,000 crore by the end of FY26, banking on steady international momentum and

accelerated project delivery under its internal "Operation Tattva" initiative, focusing on three core non-negotiables — uncompromised quality, controlled costs and on-time delivery.

IMEC PROJECT

RITES is also pushing ahead with a Ministry of Shipping-led pilot under the India-Middle East-Europe Corridor (IMEC), creating a digital platform for seamless customs and trade document exchange between Indian and UAE ports.

Development work for the platform MAITRI (Master Application for International Trade & Regulatory Interface), dubbed a "multi-plug adapter" for disparate logistics data exchange systems, is underway with a roll-out expected in the coming months.

'Vote theft' not just in Karnataka, spans nation: Rahul

Our Bureau
Bengaluru

Urging the Karnataka government to investigate voter anomalies in the State, Leader of the Opposition in the Lok Sabha Rahul Gandhi said, "Vote theft is an act of crime. You cannot hide, nor hide the data. Karnataka government should investigate this, and necessary action should be taken."

He claimed that this systematic vote manipulation undermined the constitutional principle of "one man, one vote."

Speaking at a press conference in Bengaluru, Gandhi presented "evidence" of electoral fraud, beginning

with anomalies in Maharashtra's recent assembly elections. "Approximately one crore new voters participated in the Vidhana Sabha elections who didn't vote in the Lok Sabha polls, and wherever these new voters appeared, BJP won," Gandhi stated, highlighting suspicious voting patterns.

He added that the investigation in Karnataka, where his party's internal surveys predicted 15-16 seats but won only nine, took six months to uncover systematic vote theft in the Mahadevapura constituency alone. There, he alleged that 1,00,250 votes were stolen from a total of 6,50,000 — representing one in every six votes.

ALLEGED THEFT

The alleged theft included 11,965 duplicate voters, 40,009 fake addresses, 10,452 bulk voters registered at single locations and 33,692 votes manipulated through Form 6 misuse. Gandhi claimed the same in-

dividuals voted in multiple States, including Karnataka and Uttar Pradesh.

"This isn't limited to Karnataka — this theft spans the nation," Gandhi said.

The Congress leader demanded that the Election Commission provide 10 years of voter data in electronic form, along with geographic evidence from the polling booths.

"If they refuse, they're hiding a crime and aiding BJP in election theft," Gandhi cautioned.

"Elections come and go, but it's our duty to protect the electoral process," said AICC president Mallikarjun Kharge. On Monday, all MPs will march to the Central Election Commission in

Delhi and submit a memorandum, he added.

Karnataka CM Siddaramaiah said at the press conference, "The Election Commission is acting as a branch office of the BJP. The protest campaign that has started from Karnataka against vote rigging will spread across the entire country. Rahul Gandhi has thoroughly studied, collected and analysed voting statistics, and presented them with evidence before the people of the country. The Election Commission must act justly under the Constitution. No one can take away the fundamental right to vote granted by the Constitution. The people of the country will not allow this to happen."

Coimbatore offers a whole spectrum of new growth opportunities, say panelists

Our Bureau
Kochi

Speakers at the panel discussions — Coimbatore Unlimited 3.0 — were all praise for the city which is fast emerging as a destination for life-style, global capability centres (GCCs) and new generation companies dealing in artificial intelligence and a whole spectrum of growth opportunities.

Coimbatore is the new rage among potential investors not only in the south but across India with its great road and air connectivity and soothing climate, provided by the Western Ghats, they noted. Coimbatore and Kovaipudur, which is now under the wings of the Coimbatore Corporation, is poised to take off with Master Plan 2041, they said at an event in Kochi organised in partner-

ship with G Square and *The Hindu*, and supported by FICCI.

Having its roots in the textile industry in the 1950s to the latest AI start-ups, Coimbatore has seen the entire cycle of industrialisation and is now poised to take off on a new trajectory, said Junaith Babu, Chief Operating Officer of G Square. The city grew with small enterprises in small engineering works and currently is home to about 45,000 MSMEs.

Raghav, CEO A Plus Architects, pointed out that Coim-

batores had the infrastructure for the GCCs, and the city's growth vision is set firmly. The new generation is catching up with the city, given the new developments. It has the distinction of being a self-made city without much assistance from the governments.

HEALTHY MIX

Sujatha NA, Marketing Manager, Brookfields, said Coimbatore is both modern and traditional. There is a healthy mix and it is therefore, a destination for shop-

ping with its new culture of malls, which will bring in the entertainment industry as the growth story continues. Balakrishna, Consulting Director, PBK Business Consulting, said Coimbatore is now offering a rich culinary experience. The vegetarian choices have grown diversely, considering that previously non-vegetarian food was one of the strengths of the city. With the Covid 19 pandemic, the vegetarian choices have increased, drawing a lot of people to experience the foods on offer.

Metis Family Office to celebrate 15th year of operations

Our Bureau
Chennai

Metis Family Office Services, a multi-family office based in Chennai, will celebrate its 15th anniversary by hosting a knowledge-sharing event under its signature "Chanakya Series" in Chennai.

The event, scheduled on August 9, will bring together industry leaders, entrepreneurs and around 200 prominent business families

from across South India.

Featuring keynote addresses and panel discussions, the event will discuss the leadership, legacy and evolving role of family businesses in today's economy, said a release.

Founded in 2010 by Suresh Ramanujam, Metis supports business families in managing their wealth and legacy.

The company has worked with more than 150 families and has currently about ₹1,00,000 crore of net

worth under its care. The event will include speakers and panelists like Gopal Srinivasan (of TVS Capital), CK Ranganathan (CavinKare), Vikram Mohan (Pricol), Ranjit Pendurthi (Archean Chemicals), Rajkumar Ramasamy (Best Corporation), Latha Pandi-

arajan (Ma Foi Group), Sharmila Kumbhat (K-Lite Industries), Gautam Saraogi (Go Colors), Ravishanker Seetharaman (Super Auto Forge) and S Raghunandan (former CEO, Jyothy Labs). *businessline* is the official media partner of the event.

Piramal Finance to step up focus on Telangana retail loan market

Our Bureau
Hyderabad

Piramal Finance will be expanding its retail portfolio in Telangana further as it crossed ₹5,000 crore in loan portfolio in the State.

Telangana now accounts for close to 10 per cent of the company's overall business. The loan portfolio in the State stands between ₹5,000 crore and ₹5,200 crore, with strong demand for home loans, loans against property, business loans and unsecured business loans, Jagdeep Mallareddy, Chief Business Officer, Piramal Finance, told newsmen here on Friday.

STRONG GROWTH

"Telangana continues to de-

liver strong growth for our retail business. Our approach is simple — spend time on the ground with customers, understand their needs and provide solutions that work for them. This has helped us build long-term relationships and maintain asset quality at industry-leading levels," he said.

Most borrowers in Telangana avail loans in the range of ₹10 lakh to ₹30 lakh. The company's approach focuses on understanding a customer's business operations and family income rather than relying solely on CIBIL scores.

As part of this process, the Piramal Finance team visits the borrower's place of business, assesses income and expenses and evaluates repayment capacity. "This hands-on method, supported by AI-driven tools in the approval

process, has helped the company maintain non-performing loans below 1 per cent of its total loan portfolio," Mallareddy said.

Telangana remains one of Piramal Finance's top five markets, with more than 44,000 customers, a network of 29 branches across 23 cities, and growing demand from both Telugu states. The company plans to expand its retail branch footprint in the region in the coming months.

As part of its customer engagement strategy, Piramal Finance has launched 'Sameeksha' a digital series highlighting real-life borrower journeys of overcoming financial challenges and achieving milestones.

By making it available on OTT platforms, the NBFC aims to reach customers in re-

gions like Telangana more effectively, he added.

Nationally, Piramal Finance operates over 517 branches across 13,000 pin codes, serving more than 42 lakh 4.2 million customers, with 80 per cent of its business coming from metro-adjacent, tier-2, and 3-locations.

Notes : 1) The above financial results were reviewed and approved by the Board of Directors at its Meeting held on 29th May 2025. These results are as per regulation 33 of the SEBI (Listing obligations and Disclosure Requirements) Regulation, 2015 (as amended). The Statutory auditors have carried out an audit of these results for the year ended 31st March 2025. They have given an unqualified report on the above results.

2) This statement has prepared in accordance with the Companies (Indian Accounting Standards) Rules, 2015 (Ind AS) (as amended) prescribed under section 133 of the Companies Act, 2013 (as amended) and other recognised accounting practices and policies to the extent applicable.

3) The Company is presently operating in only one business segment i.e. Dairy Products.

4) The Advanekkalam plant underwent its trial run at the end of December 2024 and the first week of January 2025, subsequently commencing commercial operations. This transition led to increased operational expenses and depreciation, contributing to a negative profit for Q4 of F.Y. 2024-25 and also for Q1 of F.Y. 2025-26. The company management anticipates that the plant will achieve breakeven during Q3 of F.Y. 2025-26. This scenario is common in the industrial sector, where new plants often experience initial financial strain due to ramp-up costs. However, with optimized operations and increased production efficiency, the plant is expected to reach breakeven as projected.

5) Previous period figures are re-arranged/re-grouped wherever necessary, in line with the current period presentation.
